

Gravimetric Gas Blending Cells

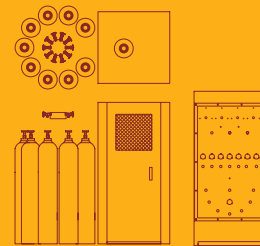

Pre-engineered. Pre-assembled. Precise.

Our Gravimetric Gas Blending Cells have the technical options to be customized to meet your specialty gas filling needs.

Features include:

- Quick and easy setup.
- Self-contained.
- Standard scales 100 & 150 KG with 0.1g resolution.
- Cabinet reduces environmental influences.
- Available for Oxidizers, Inerts, Flammables, and Toxics.
- Durable construction.
- Orbital fill head available in 6-18 cylinders, with and without isolation valves. Choose from Stainless Steel, Brass or Monel 400.
- Hydrostatically pressure tested to 1 1/2 times the service pressure. Nitrogen leak tested.
- Orbital fill head ensures homogenous gas mixtures.

Call today to order your Gravimetric Gas Blending Cabinet.
